

MONTGOMERY WEALTH MANAGEMENT, LLC

a Registered Investment Adviser

360 Mt. Kemble Avenue, Suite 3002
Morristown, NJ 07960

(833) 349-6961

www.montgomerywealthmanagement.com

This brochure provides information about the qualifications and business practices of Montgomery Wealth Management, LLC (hereinafter “MW” or the “Firm”). If you have any questions about the contents of this brochure, please contact the Firm at the telephone number listed above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority. Additional information about the Firm is available on the SEC’s website at www.adviserinfo.sec.gov. The Firm is a registered investment adviser. Registration does not imply any level of skill or training.

Item 2. Material Changes

In this Item, MW is required to discuss any material changes that have been made to the brochure since the last annual amendment. The Firm has also amended Item 10 to reflect a related investment adviser. The Firm has updated Item 18 to reflect that it does not accept prepayment of more than \$500 in fees six months or more in advance of services rendered. The Firm has also added Item 19, which responds to additional items required for state-registered advisers. The Firm has no other changes to disclose in relation to this Item.

Item 4. Advisory Business

MW offers a variety of advisory services, which include financial planning, consulting, and investment management services. Prior to MW rendering any of the foregoing advisory services, clients are required to enter into one or more written agreements with MW setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

MW filed for registration as an investment adviser in January 2019 and is owned by William Shinnars. As of the date of that filing, MW did not have any assets under management but reasonably expected to be eligible for registration with the SEC within 120 days of approval as an investment adviser. On the date of this filing, MW is registered as an investment adviser with the state of New Jersey.

While this brochure generally describes the business of MW, certain sections also discuss the activities of its Supervised Persons, which refer to the Firm’s officers, partners, directors (or other persons occupying a similar status or performing similar functions), employees or other persons who provide investment advice on MW’s behalf and are subject to the Firm’s supervision or control.

Financial Planning and Consulting Services

MW offers clients a broad range of financial planning and consulting services, which include any or all of the following functions:

- Business Planning
- Cash Flow Forecasting
- Trust and Estate Planning
- Financial Reporting
- Investment Consulting
- Insurance Planning
- Retirement Planning
- Risk Management
- Charitable Giving
- Distribution Planning
- Tax Planning
- Manager Due Diligence

These services are rendered in conjunction with investment portfolio management as part of a comprehensive wealth management engagement (described in more detail below).

In performing these services, MW is not required to verify any information received from the client or from the client’s other professionals (e.g., attorneys, accountants, etc.) and is expressly authorized to rely on such information. MW recommends certain clients engage the Firm for additional related services, its Supervised Persons in their individual capacities as insurance agents or registered representatives of a broker-dealer and/or other professionals to implement its recommendations. Clients are advised that a conflict of interest exists for the Firm to recommend that clients engage MW or its affiliates to provide (or continue to provide) additional services for compensation, including investment management services.

Clients retain absolute discretion over all decisions regarding implementation and are under no obligation to act upon any of the recommendations made by MW under a financial planning or consulting engagement. Clients are advised that it remains their responsibility to promptly notify the Firm of any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising MW's recommendations and/or services.

Investment and Wealth Management Services

MW provides clients with wealth management services which include certain of the financial planning and consulting services described above as well as discretionary and/or non-discretionary management of investment portfolios.

MW primarily allocates client assets among various mutual funds, exchange-traded funds ("ETFs"), individual debt and equity securities, options and independent investment managers ("Independent Managers") and alternative investments (which may include private securities) in accordance with their stated investment objectives.

Where appropriate, the Firm also provides advice about any type of legacy position or other investment held in client portfolios. Clients can engage MW to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans). In these situations, MW directs or recommends the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or the custodian designated by the product's provider.

MW tailors its advisory services to meet the needs of its individual clients and seeks to ensure, on a continuous basis, that client portfolios are managed in a manner consistent with those needs and objectives. MW consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. Clients are advised to promptly notify MW if there are changes in their financial situation or if they wish to place any limitations on the management of their portfolios. Clients can impose reasonable restrictions or mandates on the management of their accounts if MW determines, in its sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the Firm's management efforts.

Retirement Plan Consulting Services

MW provides various consulting services to qualified employee benefit plans and their fiduciaries. This suite of institutional services is designed to assist plan sponsors in structuring, managing and optimizing

their corporate retirement plans. Each engagement is individually negotiated and customized, and includes any or all of the following services:

- Plan Design and Strategy
- Plan Review and Evaluation
- Executive Planning & Benefits
- Investment Selection
- Plan Fee and Cost Analysis
- Plan Committee Consultation
- Fiduciary and Compliance
- Participant Education

As disclosed in the Advisory Agreement, certain of the foregoing services are provided by MW as a fiduciary under the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). In accordance with ERISA Section 408(b)(2), each plan sponsor is provided with a written description of MW’s fiduciary status, the specific services to be rendered and all direct and indirect compensation the Firm reasonably expects under the engagement.

Use of Independent Managers

As mentioned above, MW selects certain Independent Managers to actively manage a portion of its clients’ assets. The specific terms and conditions under which a client engages an Independent Manager may be set forth in a separate written agreement with the designated Independent Manager. In addition to this brochure, clients may also receive the written disclosure documents of the respective Independent Managers engaged to manage their assets.

MW evaluates a variety of information about Independent Managers, which includes the Independent Managers’ public disclosure documents, materials supplied by the Independent Managers themselves and other third-party analyses it believes are reputable. To the extent possible, the Firm seeks to assess the Independent Managers’ investment strategies, past performance and risk results in relation to its clients’ individual portfolio allocations and risk exposure. MW also takes into consideration each Independent Manager’s management style, returns, reputation, financial strength, reporting, pricing and research capabilities, among other factors.

MW continues to provide services relative to the discretionary or non-discretionary selection of the Independent Managers. On an ongoing basis, the Firm monitors the performance of those accounts being managed by Independent Managers. MW seeks to ensure the Independent Managers’ strategies and target allocations remain aligned with its clients’ investment objectives and overall best interests.

Item 5. Fees and Compensation

MW offers wealth management services for an annual fee based on the amount of assets under the Firm's management. The fees are paid either monthly or quarterly, in advance of each calendar month or quarter (the billing period), pursuant to the terms of the Advisory Agreement. The investment advisory fees are based on the market value of assets under management at the end of the prior billing period and are billed at an annual rate of up to 2.00% depending on the level of assets being managed, the complexity of the services to be provided and/or the overall relationship with the client. In addition to the investment advisory fee, the client shall pay a platform fee of up to 0.30% annually and an administrative fee paid to the advisor of up to 0.15% annually. The platform fee is for reporting and related services.

For the initial period of an engagement, the fee is calculated on a *pro rata* basis. In the event the advisory agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding or unearned portion of the fee is charged or refunded to the client, as appropriate.

Additionally, for asset management services the Firm provides with respect to certain client holdings (e.g., held-away assets, accommodation accounts, alternative investments, etc.), MW may negotiate a fee rate that differs from the range set forth above.

Retirement Plan Consulting Fees

MW charges a fixed project-based fee to provide clients with retirement plan consulting services. Each engagement is individually negotiated and tailored to accommodate the needs of the individual plan sponsor, as memorialized in the Agreement. These fees vary, based on the amount of assets managed or advised on, the scope of the services to be rendered and the person rendering the services.

Fee Discretion

MW may, in its sole discretion, negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Additional Fees and Expenses

In addition to the advisory fees paid to MW, clients also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively "Financial Institutions"). These additional charges include securities brokerage commissions, transaction

fees, custodial fees, fees attributable to alternative assets, fees charged by the Independent Managers, margin costs, charges imposed directly by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. The Firm's brokerage practices are described at length in Item 12, below.

Direct Fee Debit

Clients provide MW and/or certain Independent Managers with the authority to directly debit their accounts for payment of the investment advisory fees. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to MW.

Use of Margin and Other Borrowing

MW may be authorized to use margin in the management of the client's investment portfolio. In these cases the fee payable will be assessed gross of margin such that the market value of the client's account and corresponding fee payable by the client to MW will be increased. Where investment management fees are assessed gross of margin, a conflict of interest exists as the Firm has an incentive to use margin to increase its fees.

MW may also recommend that certain clients utilize margin in the client's investment portfolio or other borrowing (including securities-based lending). Outside of the limited investment leverage mentioned in the above paragraph, the Firm expects to primarily recommend such borrowing for non-investment needs, such as bridge loans and other financing needs. The Firm's fees are determined based upon the value of the assets being managed gross of any margin or borrowing.

Account Additions and Withdrawals

Clients can make additions to and withdrawals from their account at any time, subject to MW's right to terminate an account. Additions can be in cash or securities provided that the Firm reserves the right to liquidate any transferred securities or declines to accept particular securities into a client's account. Clients can withdraw account assets on notice to MW, subject to the usual and customary securities settlement procedures. However, the Firm designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a client's investment objectives. MW may consult with its clients about the options and implications of transferring securities. Clients are advised that when transferred securities are

liquidated, they may be subject to transaction fees, short-term redemption fees, fees assessed at the mutual fund level (e.g., contingent deferred sales charges) and/or tax ramifications.

Commissions and Sales Charges for Recommendations of Securities

Clients can engage certain persons associated with MW (but not the Firm directly) to render securities brokerage services under a separate commission-based arrangement. Clients are under no obligation to engage such persons and may choose brokers or agents not affiliated with MW.

Under this arrangement, the Firm's Supervised Persons, in their individual capacities as registered representatives of M.S. Howells & Co. ("M.S. Howells") may provide securities brokerage services and implement securities transactions under a separate commission based arrangement. Supervised Persons are entitled to a portion of the brokerage commissions paid to M.S. Howells, as well as a share of any ongoing distribution or service (trail) fees from the sale of mutual funds. MW may also recommend no-load or load-waived funds, where no sales charges are assessed. Prior to effecting any transactions, clients are required to enter into a separate account agreement with M.S. Howells.

A conflict of interest exists to the extent that a Supervised Person of MW recommends the purchase or sale of securities through a brokerage relationship where that Supervised Person receives commissions or other additional compensation as a result of that recommendation (the "Brokerage Relationship"). The Firm has procedures in place to ensure that any recommendations made by such Supervised Persons to engage in the Brokerage Relationship are in the best interest of that client. Because the Supervised Persons may receive compensation in connection with the sale of mutual funds in the Brokerage Relationship, a conflict of interest exists as such Supervised Persons, may have an incentive to recommend more expensive mutual fund share classes to clients where such Supervised Persons earn more compensation with respect to the sale of such mutual fund share classes. Clients should understand that the investments made in the Brokerage Relationship are not receiving advisory services from the Firm. Therefore, the Firm does not have a fiduciary duty over the Brokerage Relationship recommendations. For certain accounts covered by the Employee Retirement Income Security Act of 1974 ("ERISA") and such others that MW, in its sole discretion, deems appropriate, MW provide its investment advisory services to certain clients on a fee-offset basis. In this scenario, MW offsets its fees by an amount equal to the aggregate commissions and 12b-1 fees earned by the Firm's Supervised Persons in their individual capacities as registered representatives of BD.

Item 6. Performance-Based Fees and Side-by-Side Management

MW does not provide any services for a performance-based fee (i.e., a fee based on a share of capital gains or capital appreciation of a client's assets).

Item 7. Types of Clients

MW offers services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations and business entities.

Item 8. Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis and Investment Strategies

MW primarily employs fundamental analysis methodology, Global Macro, Top Down Value, and Technical analysis in developing investment strategies for its clients. Analysis and research from MW's investment adviser representatives ("IARs") are derived from numerous sources, including third-party research materials, financial media companies, reviewing company activities which may include annual reports, 10Q's, prospectuses, proxy information and research prepared by others. MW allows its investment adviser representatives autonomy in managing client assets.

As noted above, MW generally employs a long-term investment strategy for its clients, as is consistent with their financial goals. MW will typically hold all or a portion of an investment for more than one year. However, the investment may be held for a shorter period for the purpose of rebalancing a portfolio, a change in the investor's strategy, or short-term cash needs of the client. At certain times, MW may also buy and sell positions that are short-term in nature, depending on the goals of the client and/or the fundamentals of the security, sector, or asset class.

Fundamental analysis utilizes economics and business indicators as investment selection criteria. These criteria are generally ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Firm and the IARs in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. MW monitors these economic indicators to determine if adjustments to strategic allocations are appropriate.

Each client engagement at MW will entail a review of the client's investment goals, risk tolerance, investment horizon, overall financial situation, and other factors to develop and implement an appropriate strategy. Client participation in this process including full and accurate disclosure of requested information is essential for the analysis of a client's account.

Investing in securities involves certain investment risks of loss that clients should be prepared to bear. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss of principal. MW will assist clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a client will meet their investment goals.

It is important that clients understand the risks associated with investing in the stock and bond markets. It is also important that client's investment portfolios are appropriately diversified and they ask questions regarding the management of their investments.

Risk of Loss

The following list of risk factors does not purport to be a complete enumeration or explanation of the risks involved with respect to the Firm's investment management activities. Clients should consult with their legal, tax, and other advisors before engaging the Firm to provide investment management services on their behalf.

Market Risks

Investing in securities involves certain investment risks of loss that clients should be prepared to bear. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss of principal. MW will assist clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a client will meet their investment goals.

It is important that clients understand the risks associated with investing in the stock and bond markets. It is also important that client's investment portfolios are appropriately diversified and clients ask questions regarding the management of their investments.

Volatility Risks

The prices and values of investments can be highly volatile, and are influenced by, among other things, interest rates, general economic conditions, the condition of the financial markets, the financial condition of the issuers of such assets, changing supply and demand relationships, and programs and policies of governments.

Cash Management Risks

The Firm may invest some of a client's assets temporarily in money market funds or other similar types of investments, during which time an advisory account may be prevented from achieving its investment objective.

Equity-Related Securities and Instruments

The Firm may take long and short positions in common stocks of U.S. and non-U.S. issuers traded on national securities exchanges and over-the-counter markets. The value of equity securities varies in response to many factors. These factors include, without limitation, factors specific to an issuer and factors specific to the industry in which the issuer participates. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments, and the stock prices of such companies may suffer a decline in response. In addition, equity securities are subject to stock risk, which is the risk that stock prices historically rise and fall in periodic cycles. U.S. and non-U.S. stock markets have experienced periods of substantial price volatility in the past and may do so again in the future. In addition, investments in small-capitalization, mid-capitalization and financially distressed companies may be subject to more abrupt or erratic price movements and may lack sufficient market liquidity, and these issuers often face greater business risks.

Fixed Income Securities

Fixed income securities are subject to the risk of the issuer's or a guarantor's inability to meet principal and interest payments on its obligations and to price volatility.

Mutual Funds and ETFs

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund's underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholders fees (e.g., sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund's holdings. The trading prices of a mutual fund's shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to actual NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed based ETFs and potentially more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 20,000 shares or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Use of Independent Managers

As stated above, MW selects certain Independent Managers to manage a portion of its clients' assets. In these situations, MW continues to conduct ongoing due diligence of such managers, but such recommendations rely to a great extent on the Independent Managers' ability to successfully implement their investment strategies. In addition, MW does not have the ability to supervise the Independent Managers on a day-to-day basis.

Reliance on Investment Adviser Representatives

A client's investment adviser representative is primarily responsible for investments. While the Firm does supervise the investment adviser representative and oversee accounts based on general parameters, a client's performance will be highly reliant on that client's investment adviser representative to successfully implement their investment strategy.

Use of Private Collective Investment Vehicles

MW recommends that certain clients invest in privately placed collective investment vehicles (e.g., hedge funds, private equity funds, etc.). The managers of these vehicles have broad discretion in selecting the investments. There are few limitations on the types of securities or other financial instruments which may be traded and no requirement to diversify. Hedge funds may trade on margin or otherwise leverage positions, thereby potentially increasing the risk to the vehicle. In addition, because the vehicles are not registered as investment companies, there is an absence of regulation. There are numerous other risks in investing in these securities. Clients should consult each fund's private placement memorandum and/or other documents explaining such risks prior to investing.

Use of Margin

While the use of margin borrowing for investments can substantially improve returns, it may also increase overall portfolio risk. Margin transactions are generally effected using capital borrowed from a Financial Institution, which is secured by a client's holdings. Under certain circumstances, a lending Financial Institution may demand an increase in the underlying collateral. If the client is unable to provide the additional collateral, the Financial Institution may liquidate account assets to satisfy the client's outstanding

obligations, which could have extremely adverse consequences. In addition, fluctuations in the amount of a client's borrowings and the corresponding interest rates may have a significant effect on the profitability and stability of a client's portfolio.

Currency Risks

An advisory account that holds investments denominated in currencies other than the currency in which the advisory account is denominated may be adversely affected by the volatility of currency exchange rates.

Interest Rate Risks

Interest rates may fluctuate significantly, causing price volatility with respect to securities or instruments held by clients.

Item 9. Disciplinary Information

MW has not been involved in any legal or disciplinary events that are material to a client's evaluation of its advisory business or the integrity of its management.

Item 10. Other Financial Industry Activities and Affiliations

This item requires investment advisers to disclose certain financial industry activities and affiliations.

Registered Representatives of a Broker-Dealer

Certain of the Firm's Supervised Persons are registered representatives of M.S. Howells and provide clients with securities brokerage services under a separate commission-based arrangement. This arrangement is described at length in Item 5.

Licensed Insurance Agents

A number of the Firm's Supervised Persons are expected to be licensed insurance agents and offer certain insurance products on a fully-disclosed commissionable basis. A conflict of interest exists to the extent that MW recommends the purchase of insurance products where its Supervised Persons are entitled to insurance commissions or other additional compensation. The Firm has procedures in place whereby it seeks to ensure that all recommendations are made in its clients' best interest regardless of any such affiliations.

Related Investment Adviser

MW is under common control with an affiliated registered investment adviser, Harding Wealth Associates, LLC (“HWA”). Certain Supervised Persons of MW also serve in the same or similar capacity for HWA. A conflict of interest exists where MW or its Supervised Persons recommend the use of HWA’s advisory services to clients of MW because MW’s principals and/or other Supervised Persons benefit financially from such recommendation.

Item 11. Code of Ethics

MW has adopted a code of ethics in compliance with applicable securities laws (“Code of Ethics”) that sets forth the standards of conduct expected of its Supervised Persons. MW’s Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Firm or any of its Supervised Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of MW’s personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (*e.g.*, initial public offerings, limited offerings). However, the Firm’s Supervised Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Firm’s policies and procedures. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

When the Firm is engaging in or considering a transaction in any security on behalf of a client, no Supervised Person with access to this information may knowingly effect for themselves or for their immediate family (*i.e.*, spouse, minor children and adults living in the same household) a transaction in that security unless:

- the transaction has been completed;
- the transaction for the Supervised Person is completed as part of a batch trade with clients; or
- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligations of the Government of the United States; (ii) money market instruments, bankers’ acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase

agreements; (iii) shares issued by money market funds; and iv) shares issued by other unaffiliated open-end mutual funds.

Clients and prospective clients may contact MW to request a copy of its Code of Ethics.

Item 12. Brokerage Practices

Recommendation of Broker-Dealers for Client Transactions

MW recommends that clients utilize the custody, brokerage and clearing services of Charles Schwab & Co, Inc. through its Schwab Advisor Services division (“Schwab”) and/or National Financial Services LLC and Fidelity Brokerage Services LLC (together with affiliates, “Fidelity” and together with Schwab, “Custodian”) for investment management accounts. The final decision to custody assets with Custodians is at the discretion of the client, including those accounts under ERISA or IRA rules and regulations, in which case the client is acting as either the plan sponsor or IRA accountholder. MW is independently owned and operated and not affiliated with Custodians. Custodians provide MW with access to its institutional trading and custody services, which are typically not available to retail investors.

Factors which MW considers in recommending Custodians or any other broker-dealer to clients include their respective financial strength, reputation, execution, pricing, research and service. Custodians enable the Firm to obtain many mutual funds without transaction charges and other securities at nominal transaction charges. The Custodians have agreed to provide for reimbursement of client exit fees. The reimbursement will be available for a period of 24 months from the date of MW's start date. The commissions and/or transaction fees charged by Custodians may be higher or lower than those charged by other Financial Institutions.

The commissions paid by MW's clients to Custodians complies with the Firm's duty to obtain “best execution.” Clients may pay commissions that are higher than another qualified Financial Institution might charge to effect the same transaction where MW determines that the commissions are reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a Financial Institution's services, including among others, the value of research provided, execution capability, commission rates and responsiveness. MW seeks competitive rates but may not necessarily obtain the lowest possible commission rates for client transactions.

Consistent with obtaining best execution, brokerage transactions are directed to certain broker-dealers in return for investment research products and/or services which assist MW in its investment decision-making process. Such research will be used to service all of the Firm's clients, but brokerage commissions paid by

one client may be used to pay for research that is not used in managing that client's portfolio. The receipt of investment research products and/or services as well as the allocation of the benefit of such investment research products and/or services poses a conflict of interest because MW does not have to produce or pay for the products or services.

MW periodically and systematically reviews its policies and procedures regarding its recommendation of Financial Institutions in light of its duty to obtain best execution.

Software and Support Provided by Financial Institutions

MW receives without cost from Custodians administrative support, computer software, related systems support, as well as other third party support as further described below (together "Support") which allow MW to better monitor client accounts maintained at Custodians and otherwise conduct its business. MW receives the Support without cost because the Firm renders investment management services to clients that maintain assets at Custodians. The Support is not provided in connection with securities transactions of clients (i.e., not "soft dollars"). The Support benefits MW, but not its clients directly. Clients should be aware that MW's receipt of economic benefits such as the Support from a broker-dealer creates a conflict of interest since these benefits may influence the Firm's choice of broker-dealer over another that does not furnish similar software, systems support or services, especially because the support is contingent upon clients placing a certain level(s) of assets at Custodians. In fulfilling its duties to its clients, MW endeavors at all times to put the interests of its clients first and has determined that the recommendation of Custodians is in the best interest of clients and satisfies the Firm's duty to seek best execution.

Specifically, MW receives the following benefits from Custodians: i) receipt of duplicate client confirmations and bundled duplicate statements; ii) access to a trading desk that exclusively services its institutional traders; iii) access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; and iv) access to an electronic communication network for client order entry and account information.

In addition, the Firm receives funds to be used toward qualifying third-party service providers for research, marketing, compliance, technology and software platforms and services. The Support from Custodians is generally available to independent investment advisors on an unsolicited basis, at no charge to them so long as a certain amount of the advisor's clients' assets are maintained in accounts at the Custodian providing the Support. Custodians' services include brokerage services that are related to the execution of securities transactions, custody, research, including that in the form of advice, analyses and reports, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment. IARs are given freedom by the Firm over which Custodian to recommend, but the Firm may distribute certain Support to IARs based upon Support provided by that Custodian to the Firm.

For client accounts maintained in its custody, Custodians generally do not charge separately for custody services but are compensated by account holders through commissions or other transaction-related or asset-based fees for securities trades that are executed through Custodians or that settle into Custodians' accounts.

Custodians also makes available to the Firm other products and services that benefit the Firm but may not benefit its clients' accounts. These benefits may include national, regional or Firm specific educational events organized and/or sponsored by Custodians. Other potential benefits may include occasional business entertainment of personnel of MW by Custodians' personnel, including meals, invitations to sporting events, including golf tournaments, and other forms of entertainment, some of which may accompany educational opportunities. Other of these products and services assist MW in managing and administering clients' accounts. These include software and other technology (and related technological training) that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of the Firm's fees from its clients' accounts, and assist with back-office training and support functions, recordkeeping and client reporting. Many of these services generally may be used to service all or some substantial number of the Firm's accounts, including accounts not maintained at the Custodian providing the Support. Custodians also make available to MW other services intended to help the Firm manage and further develop its business enterprise. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, human capital consultants and insurance and marketing. In addition, Custodians may make available, arrange and/or pay vendors for these types of services rendered to the Firm by independent third parties. Custodians may discount or waive fees they would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to the Firm. While, as a fiduciary, MW endeavors to act in its clients' best interests, the Firm's recommendation that clients maintain their assets in accounts at Custodians may be based in part on the benefits received and not solely on the nature, cost or quality of custody and brokerage services provided by Custodians, which creates a potential conflict of interest.

Brokerage for Client Referrals

MW does not consider, in selecting or recommending broker-dealers, whether the Firm receives client referrals from the Financial Institutions or other third party.

Directed Brokerage

The client may direct MW in writing to use a particular Financial Institution to execute some or all transactions for the client. In that case, the client will negotiate terms and arrangements for the account with that Financial Institution and the Firm will not seek better execution services or prices from other

Financial Institutions or be able to “batch” client transactions for execution through other Financial Institutions with orders for other accounts managed by MW (as described above). As a result, the client may pay higher commissions or other transaction costs, greater spreads or may receive less favorable net prices, on transactions for the account than would otherwise be the case. Subject to its duty of best execution, MW may decline a client’s request to direct brokerage if, in the Firm’s sole discretion, such directed brokerage arrangements would result in additional operational difficulties or violate restrictions imposed by other broker-dealers (as further discussed below).

Commissions or Sales Charges for Recommendations of Securities

As discussed above, certain Supervised Persons in their respective individual capacities are registered representatives of M.S. Howells. These Supervised Persons are subject to FINRA Rule 3280 which restricts registered representatives from conducting securities transactions away from their broker-dealer unless the registered representatives give prior notice of such transactions to M.S. Howells and, in most circumstances, M.S. Howells provides written consent. Therefore, clients are advised that certain Supervised Persons are restricted to conducting securities transactions through M.S. Howells if they have not secured written consent from M.S. Howells to execute securities transactions through a different broker-dealer. Absent such written consent or separation from M.S. Howells, these Supervised Persons are generally prohibited from executing securities transactions through any broker-dealer other than M.S. Howells under its internal supervisory policies. The Firm is cognizant of its duty to obtain best execution and has implemented policies and procedures reasonably designed in such pursuit.

Trade Aggregation

Transactions for each client will be effected independently, unless MW decides to purchase or sell the same securities for several clients at approximately the same time. MW may (but is not obligated to) combine or “batch” such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among the Firm’s clients differences in prices and commissions or other transaction costs that might not have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and allocated among MW’s clients pro rata to the purchase and sale orders placed for each client on any given day. To the extent that the Firm determines to aggregate client orders for the purchase or sale of securities, including securities in which MW’s Supervised Persons may invest, the Firm does so in accordance with applicable rules promulgated under the Advisers Act and no-action guidance provided by the staff of the U.S. Securities and Exchange Commission. MW does not receive any additional compensation or remuneration as a result of the aggregation.

In the event that the Firm determines that a prorated allocation is not appropriate under the particular circumstances, the allocation will be made based upon other relevant factors, which include: (i) when only a small percentage of the order is executed, shares may be allocated to the account with the smallest order

or the smallest position or to an account that is out of line with respect to security or sector weightings relative to other portfolios, with similar mandates; (ii) allocations may be given to one account when one account has limitations in its investment guidelines which prohibit it from purchasing other securities which are expected to produce similar investment results and can be purchased by other accounts; (iii) if an account reaches an investment guideline limit and cannot participate in an allocation, shares may be reallocated to other accounts (this may be due to unforeseen changes in an account's assets after an order is placed); (iv) with respect to sale allocations, allocations may be given to accounts low in cash; (v) in cases when a pro rata allocation of a potential execution would result in a de minimis allocation in one or more accounts, the Firm may exclude the account(s) from the allocation; the transactions may be executed on a pro rata basis among the remaining accounts; or (vi) in cases where a small proportion of an order is executed in all accounts, shares may be allocated to one or more accounts on a random basis.

Item 13. Review of Accounts

Account Reviews

MW monitors client portfolios on a continuous and ongoing basis while regular account reviews are conducted on at least an annual basis. Such reviews are conducted by the Firm's investment adviser representatives. All investment advisory clients are encouraged to discuss their needs, goals and objectives with MW and to keep the Firm informed of any changes thereto. The Firm contacts ongoing investment advisory clients at least annually to review its previous services and/or recommendations and quarterly to discuss the impact resulting from any changes in the client's financial situation and/or investment objectives.

Account Statements and Reports

Clients are provided with transaction confirmation notices and regular summary account statements directly from the Financial Institutions where their assets are custodied. From time-to-time or as otherwise requested, clients may also receive written or electronic reports from MW and/or an outside service provider, which contain certain account and/or market-related information, such as an inventory of account holdings or account performance. Clients should compare the account statements they receive from their custodian with any documents or reports they receive from MW or an outside service provider.

Item 14. Client Referrals and Other Compensation

Client Referrals

The Firm does not currently provide compensation to any third-party solicitors for client referrals. In the event a client is introduced to MW by either an unaffiliated or an affiliated solicitor, the Firm may pay that solicitor a referral fee in accordance with applicable state securities laws. Unless otherwise disclosed, any such referral fee is paid solely from MW's investment management fee and does not result in any additional charge to the client. If the client is introduced to the Firm by an unaffiliated solicitor, the solicitor is required to provide the client with MW's written brochure(s) and a copy of a solicitor's disclosure statement containing the terms and conditions of the solicitation arrangement. Any affiliated solicitor of MW is required to disclose the nature of his or her relationship to prospective clients at the time of the solicitation and will provide all prospective clients with a copy of the Firm's written brochure(s) at the time of the solicitation.

Item 15. Custody

The Advisory Agreement and/or the separate agreement with any Financial Institution authorize MW and/or the Independent Managers to debit client accounts for payment of the Firm's fees and to directly remit those funds to the Firm in accordance with applicable custody rules. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to MW. Where required, MW also sends to clients a written invoice itemizing the fee, including the formula used to calculate the fee, the time period covered by the fee and, if applicable, the amount of assets under management on which the fee was based. MW intends to use the safeguards of sub-subparagraph 13:47A-6.3(a)56ii(3) of the New Jersey Administrative Code, and does not provide services to any pooled investment vehicle.

In addition, as discussed in Item 13, MW will also send, or otherwise make available, periodic supplemental reports to clients. Clients should carefully review the statements sent directly by the Financial Institutions and compare them to those received from MW.

Item 16. Investment Discretion

MW is given the authority to exercise discretion on behalf of clients. MW is considered to exercise investment discretion over a client's account if it can effect and/or direct transactions in client accounts

without first seeking their consent. MW is given this authority through a power-of-attorney included in the agreement between MW and the client. Clients may request a limitation on this authority (such as certain securities not to be bought or sold). MW takes discretion over the following activities:

- The securities to be purchased or sold;
- The amount of securities to be purchased or sold;
- When transactions are made; and
- The Independent Managers to be hired or fired.

Item 17. Voting Client Securities

MW does not accept the authority to vote a client's securities (i.e., proxies) on their behalf. Clients receive proxies directly from the Financial Institutions where their assets are custodied and may contact the Firm at the contact information on the cover of this brochure with questions about any such issuer solicitations.

Item 18. Financial Information

MW is not required to disclose any financial information due to the following:

- The Firm does not require or solicit the prepayment of more than \$500 in fees six months or more in advance of services rendered;
- The Firm does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients; and
- The Firm has not been the subject of a bankruptcy petition at any time during the past ten years.

Item 19. Financial Information**Principal Executive Officer and Management Person**

WILLIAM SHINNERS

Born 1957

Post-Secondary Education

Fairleigh Dickinson University | Studies in Marketing, No Degree | September 1978 – May 1980

Recent Business Background

Montgomery Wealth Management | Chief Executive Officer and Chief Compliance Officer | January 2019 – Present

Morgan Stanley | Complex Manager | July 1998 – September 2017

Additional Information

Neither the Firm nor its Supervised Persons are compensated for advisory services with performance-based fees. Neither the Firm nor its Supervised Persons have been the subject of the type of disciplinary event that warrants disclosure pursuant to this Item. Neither the Firm nor its Supervised Persons have a material relationship or arrangement with any issuers of securities.
